Re: Kora Cochran

DOB: [REDACTED]  
[REDACTED]  
Hampton, NH [REDACTED]

To Whom It May Concern:

Writing this letter on behalf of Kora Cochran who has been in treatment under my care since November 1, 2018. Kora is suffering from generalized anxiety disorder and possibly posttraumatic stress disorder which has been exacerbated by the bullying at school. She has shared this with me on several occasions. This ongoing bullying is detrimental to her psychological well-being and can have long lasting negative impact on her development. It is also impeding her progress in treatment and continues to cause significant distress for her and for her family. I trust that the school administration will take every measure to protect the well being of her student and keep her safe.  
Thank you for your cooperation.

Sincerely,

[REDACTED]
